(54) Title: **DEVICE FOR PROCESSING DEMONSTRATION SIGNALS AND DEMONSTRATION CONTROL DATA**

(57) Abstract: At a playback device (10) comprising at least one signal processing means for processing a signal and switching means for switching the playback device (10) into a demonstration mode a demonstration of an inherent function of the playback device (10) can be performed. Therein supply means (40) for supplying demonstration data for the demonstration and data reading means (40) for reading demonstration control data of a data carrier (41) which comprises demonstration control data for performing the demonstration are embodied as well as processing means (53) for processing the demonstration control data such that the demonstration data are transmittable to the at least one signal processing means during processing of the demonstration control data.

# INTERNATIONAL SEARCH REPORT

International application No  
PCT/IB 03/02302

A. CLASSIFICATION OF SUBJECT MATTER  
IPC 7 G06F9/44 G11B20/12

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)  
IPC 7 G11B G10H G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the International search (name of data base and, where practical, search terms used)

EPO-Internal, PAJ, WPI Data

### \* Special categories of cited documents:

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \* & \* document member of the same patent family
